MEMORANDUM FOR: DAIR

I am forwarding the attached unclassified paper on Eastern European Military budgets to OER for inclusion in their package for the Joint Economic Committee.

[REDACTED] has edited it. The Form is set up for compatible with the way the JEC publishes. In the past, authorship has been attributed, and I have identified the OSR participants in the study. However, this point is being checked out by OER with the DDI's office to make sure that it is still OK.

The conclusions are derived from unclassified sources, but are consistent with what we know based on classified information.
